## LETTER OF RECOMMENDATION ~

Our company, management team and community of tenants are above and beyond satisfied with the superior quality of work, care and craftsmanship that was received from Liberty Exteriors. Any persons lucky enough to have landed work from Liberty Exteriors cannot go wrong. From the first initial appointment, throughout each and every phase of the entire job and down to the completion of work, we were pleased and satisfied with everything done for our company. Liberty Exteriors were more than courteous to our tenants; they were more than helpful with working around the parking and schedules of the members of our community. Each and every employee had shown the company and all of its residents more care, concern and respect than could have been expected. The job was completed in the timeliest manner and they defiantly exceeded our expectations of handling all matters with the insurance companies. We were in good hands throughout the entire process. Tower Terrace is very pleased with the many compliments the property has received. The quality and skills provided, will shine throughout our buildings for everyone to see. We will continue to recommend Liberty Exteriors to each and every company we meet. Rest assured going with Liberty Exteriors is a choice your company will not regret.

Thank you
